This is a well informed book and constructively addresses crucial questions which many other marriage books tend to neglect.

Ann Benton
Author and family conference speaker, Guildford, England

With endless reports on divorce rates, it is heartening to read a book which seeks to raise our sights - to appreciate the great purposes of God in our marriages, to understand how God first created marriage and to see how he will bring it to completion in heaven. A book to be bought, read and lent.

Evangelicals Now

Here is a monumental work of love and energy, from one of the most effective Christian ministers in the UK. Today, when the foundations of marriage are under attack from outside and within the church, *The Diamond Marriage* comes as a book that is timely and urgently needed among us all

I encourage you to read it and work through the practical exercises aimed at reviving healthy and god-glorifying marriages which will be invaluable at a time when marriage is under unprecedented assault from all sides.
