20	<i>In Difficult Circumstances</i> .....	89
21	<i>Review of both Peter Series</i> .....	92

**On the Way for 9-11s** works on a two year syllabus, consisting of 6 books. It follows on from **On The Way for 3-9s** and includes material that is not covered in that syllabus. It is designed to introduce children of this age group to simple Bible study.

The lessons are grouped in series, each of which is introduced by a series overview stating the aims of the series, the lesson aim for each week and an appropriate memory verse.

Every lesson, in addition to an aim, has study notes to enable the teacher to understand the Bible passage, suggested visual aids where appropriate and an activity for the children to do and take home. Because of the emphasis on teaching basic Bible study skills, many of the activities take the form of work-sheets. These provide opportunities for applying the lessons learnt. Many of the lessons also include a craft activity.
