**On The Way for 11-14s** works on a 3 year syllabus consisting of 6 books. It builds on the 9-11s syllabus and introduces young teens to study the Bible in a way which is challenging and intellectually stretching. Because they are often unprepared to take things at face value and are encouraged to question everything, it is important to satisfy the mind while touching the heart. Therefore, some of the lessons are designed to introduce the idea of further Bible study skills, e.g. the use of a concordance, a character study, studying a single verse or a passage.

Lessons are grouped in series, each of which is introduced by a series overview stating the aims of the series, the lesson aim for each week, and an appropriate memory verse. Every lesson, in addition to an aim, has study notes to enable the teacher to understand the Bible passage, a suggestion to focus attention on the study to follow, a 'Question Section' and an activity for the group to do. The Question Section consists of 2-3 questions designed to help in discussing the application of the Bible passage. The course can be joined at any time during its 3 year cycle.
