Big Bible Science

Experiment and Explore God's World

Erin Lee Green

RELEASE DATE 20 MARCH 2016

RELATED TITLES

DESCRIPTION

Big Bible Science helps children and those who teach them to explore God's World and God's Word through real live science experiments. There are twenty–one different units taking students through scientific concepts such as Gravity, Friction, Animal Classification and the Nervous System. God creates young minds to ask questions and seek answers. This book is designed to stir the imaginations of students and develop a lasting love for Christ.

MARKETING POINTS

Ideal for Home schoolers or classroom based activities

Demonstrations, games and experiments

Real, live science experiments!

AUTHOR

Erin Lee Green has taught chemistry, astronomy, geology, and biology in a public school setting. She holds a Master of Arts in teaching. She now enjoys sharing the wonders of God's World and Salvation with her own children and her many curious students.

ENDORSEMENTS

The Big Book of Bible Science is for the head and the heart: a good mix solid science and inspirational devotions. It's straight–forward, relevant, accurate and God–glorifying, great for kids and teachers.

Amy Mcfarlane, Homeschooling Parent

Erin Lee Green has created a delightful teaching manual that combines a love of scriptures and Bible truths with a passion for sharing the excitement and mysteries of science. Students will be drawn to the self-directed activities that are perfect for varied academic learning styles and abilities.
The down-to-earth illustrations and experiments encourage curiosity and independent thinking, while coinciding with Bible teachings and truths. Parents and teachers will appreciate the organization and clarity of the material. Big Bible Science is a wonderful resource for all Christian students, parents and teachers.
