R. Albert Mohler
President, The Southern Baptist Theological Seminary, Louisville, Kentucky

Confusion abounds today on what it means to be a man and what it means to be a woman. Peacock and Strachan put feet on the biblical teaching.

Thomas R. Schreiner
James Buchanan Harrison Professor of New Testament Interpretation and Associate Dean, The Southern Baptist Theological Seminary, Louisville, Kentucky

Strachan and Peacock don't simply defend a view of men and women that is traditional but now counter-cultural. They show it is beautiful.

Andy Naselli
Associate Professor of New Testament and Systematic Theology, Bethlehem College and Seminary, Minneapolis, Minnesota

This book has many strengths. It provides a survey of significant biblical passages that defend the main contours of complementarianism and strongly locates gender distinction within the context of God's design for humanity. It invites its readers to delight in a doctrine that is often thought of as restrictive (especially for women). Above all, the authors' encouragement to men and women to pursue Christ is vivid through prose that can often only be described as breathless.
