ENDORSEMENTS

Convinced of the importance of worship for the health of the Church, we offer this book to the public. The purpose of this book is to address a number of the major issues that create tensions in our practice of worship. Our intent, however, is not simply to critique those who differ from us, but also to offer a blueprint for a more biblical, God-honouring worship. Thus we deal with the purpose of worship, the rule for worship, and the practice of worship.

Joseph A. Pipa Jr.
President, Greenville Presbyterian Theological Seminary, Greenville, South Carolina
