ENDORSEMENTS

"Just finishing Bob Letham's brilliant and accessible *Through Western Eyes: Eastern Orthodoxy -- a Reformed Perspective.* Typical of Bob's style -- awesome learning, accessible writing, and a fine critical exposition of the history and theology of Orthodoxy, which is careful and honorable throughout. It gave me much food for thought, especially on the matter of icons (I'd never thought of the photographs of the great Hugh Miller and R S Candlish in my office as icons before....).The book is a great read, and Bob's way of using Orthodoxy as a means of sharpening the reader's own understanding of the Reformed tradition is a piece of classic pedagogy".

Professor of Biblical and Religious Studies, Grove City College, Pennsylvania

"Nevertheless, conversations will continue and Dr Letham's book is probably the best one there is from a reformed perspective. It should be in the library of every pastor and theologian and consulted whenever questions relating to the eastern church and our links with its tradition arise."

Gerald Bray
Research Professor, Beeson Divinity School at Samford University, Birmingham, Alabama

Several years ago on one of my visits, to Eastern Europe countries, I was asked by local students to explain the difference between their local Orthodox Church and my own Baptist church. It would have been useful to read this book before then, even if my answer was basically correct...This book will be useful to those living and working (perhaps as missionaries) in countries where these churches are active. It will give a balanced insight into their beliefs - and challenge our thinking too!
