ENDORSEMENTS

"This volume (one title in the Focus on Faith Series) demonstrates a user friendly approach to the character and nature of God. Each of the twelve chapters looks at one aspect of God's character, reviews the doctrines that flow from it and discusses an appropriate response. The purpose of the book is to elicit within the reader a sense of awe and wonder in response to the glory, the majesty, the power and the divinity of our awesome and almighty God. Here, in this book, is a basic theology ideal for the youth of today, as well as adults: biblical, informative, practical and down to earth. A useful tool for the individual, or, with some adaptation, for group work."
