ENDORSEMENTS

Informative and inspirational. Theological and practical. The value of *Death or Glory* is that it offers a look at mission in Scotland from several different angles help us to gain our 360 degree perspective. Scotland cannot rely on its spiritual heritage from the past. I hope this helpfully challenges the church to face the task of the future. It would be a sin if those in other parts of the United Kingdom did not read and benefit from these reflections. There is so much that those south of the border and elsewhere can learn.

Derek Tidball
Formerly Principal of London School of Theology

There is an urgent need for mainline churches to move from maintenance to mission. Here, in short compass, are the reasons for that transition and why the church needs to act now. These articles should move us to prayerful and thoughtful actions.

Rev. J Stafford Carson, Newtownabbey

Devolution is the in-word politically. Spiritually England and Scotland preach the same gospel and fight similar battles. As one who has ministered on both sides of the Border I have found this book compelling, disturbing, and yet hopefully reading.

Philip H. Hacking
Retired Anglican priest, itinerant evangelical speaker, bible teacher and author, Lancashire
