AUTHOR

John Calvin (1509-1564) was a theological giant of the Protestant Reformation. A contemporary of Luther, he had as much influence over this period of history as his German counterpart. His writings are still cherished and relevant today.

ENDORSEMENTS

"Recent years have witnessed a renewed interest in the sacramental theology of John Calvin. A number of studies have been published, but unfortunately until now it has been difficult for many interested readers to find access to many of the relevant writings of Calvin on the subject. His commentaries and his Institutes of the Christian Religion have long remained in buried in long out of print and obscure volumes. With the re-publication of Treatises on the Sacraments, this problem has been resolved to a large degree."
