DESCRIPTION

We all belong to a culture. From the shows we watch to the language we use to the food we eat; culture shapes the way we look at the world, the way we act, the way we think. It affects so much of our lives, and yet we are rarely aware of it. If we are not careful, it can push us away from God's good desires for who we are and how we live in our world.

This short, helpful book from the *Track* series encourages young adults to think about what it means to live in the culture but to follow God's ways rather than the ways of the world.

ENDORSEMENTS

What makes Walt Mueller such an important resource for youth workers is that he's a keen student of both the culture and the Word. And he puts both of those tools to good use in this little book. The book is readable, biblical, and, of course, up–to–the–minute relevant.

A Student's Guide to Navigating Culture is packed with valuable content to help students learn to think Christianly about gender, social media, and more. And yet it's short, easy to read, and biblically sound. I wish every young person would read this and discuss it with a caring adult.

Sean McDowell
Professor of Christian Apologetics, Biola University, La Mirada, California Best–selling author and popular speaker

A must read resource for anyone who loves teenagers.
