This beautifully written book of sound Christ-centered biblical exposition and skillful personal application, will not only strengthen and heal many marriages, but will also draw many Christians into a deeper appreciation and enjoyment of their marriage to Christ. ...a fresh, biblically-theologically informed approach to the Song of Solomon. This is a commentary pastors should regularly turn to when preaching through this important but difficult book of Scripture. And make no mistake-reading this commentary will make you want to preach this book.
