ENDORSEMENTS

"Julius Scott's New Testament Themes is in fact a theology of the New Testament helpfully pitched at the level of the college student and general reader rather than the professional theologian and affords a detailed but readily readable and comprehensible topical exposition of New Testament teaching. Among its particular features I single out its careful treatment of the church's relation with and responsibility to society. Clearly and simply presented, it should attract a wide audience among Christians wanting a systematic guide to the main theological themes in the New Testament."

I. Howard Marshall
(1934-2015) Emeritus Professor of New Testament, University of Aberdeen

"This book is a labor of love—for the Scriptures, for readers, for learning, for teaching, and for God himself. The author takes up each topic in a wise, thorough, probing, and reverent manner. Readers will gain fresh insight into the history of New Testament times, the convictions of the biblical writers, and the implications of the age-old yet ever new Christian message for today. Readers will also glimpse the work of major New Testament scholars as their research has unfolded over recent decades. This is an excellent intermediate survey for college students, as well as for laypersons eager to move to new levels of biblical understanding."

Robert W. Yarbrough
Professor of New Testament, Covenant Theological Seminary, St. Louis, Missouri
