ENDORSEMENTS

This is a good little book on the subject of healing that is worthy of being read by anyone interested in the subject. It is a book which was written before its time, but one quickly gets used to his style of writing as his theories on important issues unfold. He presents a number of interesting thoughts on such subjects as 'Why are some people healed and others not healed?' and 'Who should or should not be involved in ministry?' Henry Frost adheres very much to the Scriptures throughout this book. I would strongly recommend it to all who are interested in healing.

The Rutherford Journal of Church & Ministry

.. classic book on healing... the book springs from personal experience but always seeks to measure that experience against scripture. In the midst of controversy it lead me to consider Jesus. I think you might be glad you read it too.

Triple Helix- For today's Christian doctor

"This is easily and incomparably the best book I have ever read on this subject."

Martyn Lloyd-Jones

Martyn Lloyd-Jones (1899-1981) Westminster Chapel in London, England from 1938-68.

"This double-edged sword of Scripture and personal experience cuts through thickets of error and misconception to present one of the clearest discussions about miraculous healing of which I know"
