I truly enjoy this story, it is so realistic in our strange world. I have used it in public, telling old and young and they all adore the story.

It is also so encouraging that it brings the questions about nationality conflict, faith, and superstitious in simple and clear way, not too much and not hidden. It is exelent to use as a starter for good talks, discussions and a time for prayer!

Christian Gabre, InterAct

"The story of Patti is based on a real conversion experience of a Muslim young woman coming to faith in Christ Jesus. After the book came out, I delivered a copy of the book to the real "Patti". She had then moved out of her childhood countryside into a concrete metropolis where she ministers with her husband. After sharing the book with her toddler, it became the child's favorite book. When asked why, she explained, "The child has never before seen a book that so truly illustrates our culture, our people and our home."
