Ideal for Reading Aloud to Children of all Ages

Jesus' work in your life

AUTHOR

D.L. Moody was an American evangelist of late 19th century New England, and founder of the Moody Bible Institute and Moody Publishers.

ENDORSEMENTS

Children's Stories is a compilation of mostly one-page vignettes told by D. L. Moody. They remind me of the kinds of stories friends share with each other at a dinner table. Some of them are cute, some are inspiring, and some are the sort that you hear and exclaim, "Oh, wow!" This book would be excellent as a conversation starter at the family dinner table...

Each little story has a poignant and powerful message for its readers. This book would be especially beneficial for those readers who work with children. It will inspire those who already are Sunday School teachers and instill in others the desire to teach children. This book will make you want to pray more after you read page after page of marvellous answers to prayer. This is the sort of book one can pick up and enjoy just a little bit at a time - or all at once!
