The Christian legacy of this amazing missionary is still felt today in the South Sea Islands. Reading true life stories like this help us realise what difficulties really are. John G Paton was no stranger to struggle. This is not the story of a gentleman missionary who wilts at the first hardship. This man went through the school of hard knocks to become a missionary in one of the toughest areas of Glasgow - and then on to the savage tribes of the South Sea Islands. Being a missionary is hard - it certainly was back then. For many their very life was in the balance and John G Paton was no exception. Cannibals and warring tribes were daily dangers.
