Follows the structure of the Westminster Shorter Catechism

Basic explanation of doctrine

AUTHOR

Randall Greenwald pastors Covenant Presbyterian Church in Oviedo, Florida, and is a guest lecturer at Reformed Theological Seminary in Orlando. A graduate of Covenant Theological Seminary, he previously wrote the family worship guide 'As for My House'. He and his wife Barb have six children and many grandchildren.

ENDORSEMENTS

Catechisms are an ancient and time–tested method that Christians have employed to pass on the core of what they believe about God and what He requires believers to do. Through a simple question–and–answer approach, young and old have been taught biblical truth about our great God and His ways. Randall Greenwald's new discussion of the Westminster Shorter Catechism, one of the most treasured of these catechisms, is indeed a welcome tool for exploring the riches of this particular catechism and, even better, for growing in the grace of the Lord Jesus.

Michael A. G. Haykin
Professor of Church History and Biblical Spirituality, The Southern Baptist Theological Seminary, Louisville, Kentucky

... brings the deep, rich, biblical and reformed theology of the 17th century *Westminster Shorter Catechism* to life in the 21st century in a way that is warm, inviting, accessible, conversational and centered in Christ and the gospel of saving and transforming grace.

Mark L. Dalbey
President, Covenant Theological Seminary, Creve Coeur, Missouri

Do we really need another book on the *Westminster Shorter Catechism*? It might be tempting to say we don't, since this classic summary of Bible doctrine already has countless summaries and explanations of it in circulation. But both the title and the table of contents of this particular volume immediately captured my imagination. Here is a fresh and thoughtfully applied exploration of the great truths that were first summarised for a distant generation, revisited for today.

Mark Johnston
Editor, Banner of Truth Magazine

The Shorter Catechism is one of those 'treasures in the attic,' as the late Dr. Hughes Old called them, that in more recent years have been re-discovered, brought down into the living room, dusted off, and re-utilized. It is a classic tool for parents who wish to transmit the content and reality of their faith to their children. Part of the dusting off process includes fresh expositions addressed to the living situation of the present
