ENDORSEMENTS

By adoption, a couple brings a child into the family structure who was not naturally born to that family. Although no blood connection exists, the law guarantees for the child all the rights and privileges belonging to family. It is a beautiful picture of the legal sonship of the believer. In this pocket guide, Beeke succinctly, clearly, and effectively explains this gospel truth in a way to avoid confusion and to guide believers into the experiential enjoyment of this amazing truth.

Michael P. V. Barrett
