ENDORSEMENTS

Many colorful words describe this book. To name just ten: practical, scholarly, whimsical, logical, shrewd, humorous, insightful, creative, thoughtful, gripping. But best of all it is true to the text and intent of Luke's Gospel and its focal point, Jesus Christ. Davis wonderfully combines a scholar's skills and wisdom with a storyteller's knack and a pastoral heart. The reader will learn Luke's Gospel afresh, see details from fresh angles, and be better equipped to grasp its message, grow in faith, and share this good news with others.

Robert W. Yarbrough
Professor of New Testament, Covenant Theological Seminary, St. Louis, Missouri

Brimming with insightful exegesis, theological depth, vivid illustration and pastoral application, these two volumes are vintage Dale Ralph Davis. Whether you use them in personal devotion, or a small group, or as a preacher seeking to teach your congregation, this engaging journey through Luke's gospel will be a very useful and edifying guide.

Reuben Hunter
Pastor, Trinity West Church, London

These books are thorough, sound and Christ-centred. Though focused on a particular section of Scripture, they also present an overall view of the Bible. Old Testament connections to what is happening in Jesus' ministry are brought out as you go through Luke's Gospel. The book is intended for small group leaders or anyone ready for a fairly serious study. Readers will come out with a sound basic understanding of Luke and its place in God's redemptive programme. Taylor avoids any secondary issues and sticks to the main thrusts of each passage. On the whole, this is a good book and comes warmly recommended.
