"The book is written from an evangelical standpoint and contains much of help to all who preach. It also presents many challenges with respect to our heart attitudes and motives."

Evangelicals Now

My colleague at Columbia International University Seminary and School of Missions (we have very large sweatshirts) has produced for us an enormously practical work on all the critical issues of preaching in today's world. I commend *Preaching with Balance* without reservation.

Someone has said that balance may be just another word for deadness, but that is certainly not true with this very helpful discussion of faithfully and fruitfully proclaiming God's Word. The topics covered are balance in theological and personal perspective, in preaching purpose, in homiletical variety, and in sermon content and delivery..

Dr. Hamilton makes the point that most congregations would be pleased to hear better preaching, and most preachers would be pleased to be more effective in the pulpit. This text, carefully studied and applied, will greatly help to fulfill both desires..

For too long homileticians have camped out on the practical "how to" while blatantly neglecting foundational matters in preaching. Don Hamilton has brought a corrective to the work. Preaching with Balance truly is a balanced approach to preaching, addressing theology and philosophy as well as practical application. To top it off, Hamilton weds hermeneutical integrity, homiletical ingenuity and healthy sermon delivery into one volume—a much-needed feature in books on preaching. It's got it all! And all of us who preach will do a better job of handling God's Word rightly as a result of
