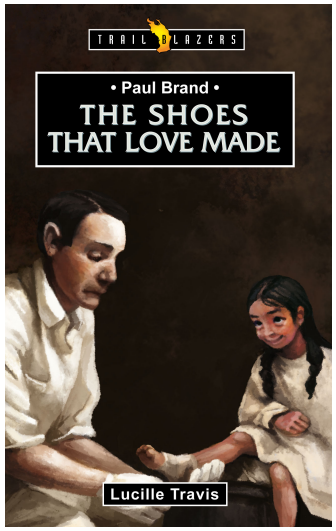
Paul Brand: The Shoes That Love Made

Lucille Travis

RELEASE DATE 20 NOVEMBER 2014



DESCRIPTION

Paul Brand grew up in the Kolli Malai hills in India. He was determined never to leave India and never to be a doctor like his father – especially to lepers. Paul came back to India with a medical degree and there were patients waiting for him – leprosy patients. From then on he devoted his life to their care … even to the point of making them special shoes! Paul's faith in God, his love for mankind and his medical abilities gave those who suffered from leprosy a new life – and hope.

MARKETING POINTS

Story of the founder of the Leprosy Mission

Influence on treatment of leprosy patients around the world

Christian compassion and practical work

AUTHOR

Lucille Travis is the author of several children's books and delights in encouraging young writers. A former college lecturer, she has also been a storyteller in Awana clubs and has held children's writing workshops.
