ENDORSEMENTS

Thomas Boston's annotated edition of *The Marrow of Modern Divinity* is one of the most important texts in the history of Reformed discussions of justification, assurance and ethics. It has a controversial history - as the notes provided by Boston indicate - but that is because the matters on which it touches are so central to understanding both the gospel and the Christian life. This is a book which repays the time spent studying it.

Carl R. Trueman
Professor of Biblical and Religious Studies, Grove City College, Pennsylvania

Anyone who comes to grips with the issues raised in *The Marrow of Modern Divinity* will almost certainly grow by leaps and bounds in understanding three things: the grace of God, the Christian life, and the very nature of the gospel itself. I personally owe it a huge debt.

Sinclair B. Ferguson
Chancellor's Professor of Systematic Theology, Reformed Theological Seminary

The Marrow emphasizes biblical, evangelical doctrines such as the sovereignty of God in the covenant of grace, the free offer of the gospel, assurance in Christ as the essence of faith, and sanctification by grace rather than by the law.

Philip G. Ryken
President, Wheaton College, Wheaton, Illinois

"*The Marrow of Modern Divinity* is one of the most important theological texts of all time"
