The Power of Speaking God's Word is much more than a book about preaching, "the great purpose of the oral craft," writes Ellsworth, is to create a sermon inside the preacher in all its fullness so that, when the moment to preach comes, the text of scripture in all its meaning and significance pours forth from the preacher. Ellsworth's book has been good for my soul and my preaching. It is a pleasure to commend this fine book.

Visiting Professor of Pastoral Theology, Westminster Theological Seminary, Philadelphia, Pennsylvania

Preaching without notes: I've watched the idea strike terror onto the hearts of fledgling preachers – and not a few veterans – countless times. But now there is help. Wilbur Ellsworth shows not only that this feat can be done, but also, more importantly, how and why it should be done.

Duane Litfin
Former President, Wheaton College

Preachers should read and carefully consider this very well–focused study on the oral sermon in our times. Dr. Ellsworth preaches to large congregations and provides moving testimony to how his preaching changed positively when he weaned himself from an addiction to his manuscript...highly recommended for all students and practitioners of the craft.

David L. Larsen
Professor Emeritus of Preaching, Trinity Evangelical Divinity School, Deerfield, Illinois

Most preachers have been taught to produce carefully written material to be given in the pulpit. Changing patterns is hard but Wilbur Ellsworth will show you why you should change and how you can. His thoughts have deeply impacted my own preaching.

John Armstrong
Director of Renew and formerly a Pastor for twenty years
