ENDORSEMENTS

"We live in a day of wholesale historical amnesia and theological confusion. The antidote for this crisis is clear - we need a recovery of what has been lost. That is what makes The Westminster Confession into the 21st Century so important and timely. The Westminster Assembly represents one of the most decisive moments in church history, and this collection of essays brings new light to our understanding of the Westminster divines and their work. Here we find scholarship matched to a deep love for the church. This book is a worthy successor to the first two volumes in this series. I celebrate its publication and commend it to all who love the church."
